DETAILED ACTION

The provisional election of Group III of 17 November 2006, with traverse is acknowledged. To facilitate examination, a further election of species within Group III is required. The traversal of Group III will be addressed in the office action following the election of species.

Election/Restrictions

Claims 16 and 18-19 are generic to the following disclosed patentably distinct species: Claim 16 is generic to the patentably distinct carrier proteins oleosin, caleosin, steroleosin, cruciferin, or napin. The embodiment of plant viral movement protein recited in claim 16 corresponds to non-elected Group II. Claims 18-19 are generic to the patentably distinct regulatory sequences of a NAP, a chimeric hybrid, a phaseolin, a steroleosin, a caleosin, a cruciferin, an albumin 2S or an oleosin promoter. The embodiments of viral or heat shock promoters recited in claim 19 correspond to non-elected Group II. The species are independent or distinct because the different promoters listed have different sequences and differing functions in different tissues, and the different carrier proteins have different sequences and different interactions with different proteins. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for claims 16 and 18-19, even though this requirement is traversed. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon,

Art Unit: 1638

including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
